Dear Lorem Ipsum,

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet..", comes from a line in section 1.10.32.

The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham.

Dear Marius,

On the Graphics List the other day, I got the strangest request, for a dummy letter! Surely a letter is easy enough to fake, and not something I would have thought needed special dummy text. Perhaps I am ignorant, but I kind of assumed it was a joke. Except that it wasn't very funny. Unless I'm just too ignorant to understand it. Is there some sort of official dummy text for letters? I certainly find that "lorem ipsum" stuff incredibly useful for large documents, so I assume it could be used for a letter as well, but the designer (corporate funster, whatever) of course would have to make up his or her own date and name and address.

I usually take the time to write utter bollocks a la automatic writing for something as short as a letter. As long as it doesn't have the word "bollocks" in it, it amuses me and helps prepare myself for the task at hand.

Or we could always quote a famous letter:

San Francisco, March 5th, 1866.

My Dear Mother and Sister, -- I start to do Sandwich Islands day after tomorrow, (I suppose Annie is geographer enough by this time to find them on the map), in the steamer "Ajax." We shall arrive there in about twelve days.

My friends seem determined that I shall not lack acquaintances, for I only decided today to go, and they have already sent me letters of introduction to everybody down there worth knowing. I am to remain there a month and ransack the islands, the great cataracts and the volcanoes completely, and write twenty or thirty letters to the Sacramento Union -- for which they pay me as much money as I would get if I staid at home.

If I come back here I expect to start straight across the continent by way of the Columbia river, the Pend d'Oreille Lakes, through Montana and down the Missouri river, -- only 200 miles of land travel from San Francisco to New Orleans.

Goodbye for the present.

Yours,

Sam
